## **DETAILED ACTION**

### ***Response to Amendment***

1. In response to the Amendment received on August 29, 2006, the examiner has carefully considered the amendments. The examiner acknowledges the cancellation of claims 1-17 and 20-38.

### ***Response to Arguments***

2. Applicant's arguments, see Remarks/Arguments, filed August 29, 2006, with respect to claims 1-17 and 20-38 have been fully considered and are persuasive. The rejection of claims 1-17 and 20-38 under 35 USC 103(a) as being unpatentable (obvious) by Asawa et al (JP 54/0526920) has been withdrawn in view of applicant's cancellation of said claims. The rejection of claims 20-38 under 35 USC 102(b) as being anticipated by Asawa et al (JP 54-0526920) has been withdrawn in view of applicant's cancellation of said claims.

### ***Allowable Subject Matter***

3. Claims 18-19 are allowed.

4. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the instantly claimed method is the step (b) that comprises imbibing said fluoropolymer of step (a) into a porous supporting substrate. The prior art, taken alone or in combination, fails to teach imbibing these types of fluoropolymers into porous substrates. Therefore the inventive methods of instant claims 18-19 are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
